# Proven computer solutions

Simplify your Computer Environment !

## AT YOUR SERVICE

Built on a corporate experience of more than 20 years, we bring to you efficient solutions and a high quality know-how.

We have rigorously tested and assembled services that include the latest technologies while being robust and flexible. These services are bundled in a simple and intuitive way so you can choose what closely matches your needs and budget.

## flexible solutions adapted to **your** needs

### OCIM ANSWER

Is this list familiar?

- Your computer has become so slow, you would like to change it
- You are not sure to get what you need at a retailer but rather what they want to sell to you
- You are not understood by a sales person and they cannot address your needs
- Your computer is not adapted to what you would like to do
- You always need to adapt to it instead
- Adding a printer or another peripheral is really painful
- All the family computers have different problems

Our services' priority is to meet your needs as well as to fit the environment in which you use your computers.

Thanks to our experience we can also recommend solutions that are tailored, integrated and that evolve in time; adapted to your day to day use and not the contrary.

for  
home users  
home office  
small business
